**No cost to your Planning Committee for this service as long as our photography station sells a minimum of \$1200 in photography packages during the cocktail hour or first 90 minutes of your event. Should the photography station not meet the minimum, your committee would be responsible for making up the difference. Please understand this is a rarity if your committee has properly advertised that a Professional Photographer will be on-site and your guests are encouraged to get in the photography line during the check-in process. For example with a guest list of 125 couples, you only need 38% participation or 48 packages sold to meet the \$1200 minimum. Many guests purchase multiple packages, bringing the requirement down to around 30 packages or so.*
